

Core Measures for Domestic Violence programs

Note: The term victim is interchangeable with: victim; secondary victim; co-victim; and victim proxy (i.e. parent or guardian).

Goal 1: Healing

Knowledge: (choose at least one)

- 1 # and % of victims reporting an increased knowledge of services available.
- 2 # and % of victims reporting an increased knowledge and understanding of domestic violence and its effect on their life.

Engaging: (choose at least one)

- 1 # and % of victims who report feeling believed/not alone.
- 2 # and % of victims who report they are (re)gaining control of their lives.

Experiencing: (choose at least one)

- 1 # and % of victims who report having increased feelings of well-being.
- 2 # and % of victims who report they know how to access short and long-term resources that meet their emotional and safety needs.

You may optionally provide any additional outcomes of your own choosing.

Goal 2: Economic Restabilization

No core outcome measures were identified. Identify at least one related outcome.

Goal 3: Justice (choice required)

Knowledge:

- 1 # and % of victims who report having an increased understanding of their legal rights.

You may optionally provide any additional outcomes of your own choosing.

Goal 4: Safety

Knowledge: (choice required)

- 1 # and % of victims that know how to plan for their continued safety.

Experiencing: (choice required)

- 1 # and % of victims reporting their safety has improved.

You may optionally provide any additional outcomes of your own choosing.

Quality Measures:

General Satisfaction: (choice required)

1

Collaborator Satisfaction: (choice required)

1

You may optionally provide any additional quality measures of your own choosing.
